Dear Educator,

Thank you for your interest in Math PALS. Math PALS comprises two major activities for each skill area: 1) *Coaching*, in which students teach each other math skills; and, 2) *Practice*, a mixed problem-type timed drill that incorporates the type of problem addressed during that day's Coaching, as well as easier problem types. To implement Math PALS for 2nd Grade you will need both the Teacher's Math Manual for Grades 2 – 6 and the PALS 2nd Grade Student Math Materials Manual.

These pages from the **PALS 2nd Grade Student Math Materials** Manual are provided as a courtesy to allow you to preview a representative sampling of the manual. This excerpt includes a sample of both *Computation* skills, which will include addition, subtraction, multiplication, and division, along with *Application* skills which will include a variety of topics from counting to fractions to word problems. This excerpt includes the following sections:

1. Computation
 - a. 2A1: Adding basic facts
 - b. 2S2: Subtracting without regrouping
2. Applications
 - a. 2AC: Applied computation
 - b. 2WP1: Word problems

This excerpt is protected by Federal Law Title 17 of the United States Code. The reproduction, distribution, and display of any part of the contents of this material are prohibited.
